

The background of the advertisement is a photograph of a modern, two-story house. The house has a dark grey or black exterior with large glass windows and a balcony with a glass railing. The sky is a clear, bright blue. In the bottom left corner, there is a large red diagonal shape that contains the text.

Property Management Solutions

"Securing Tomorrow's Properties Today"

Overview

Baztech Incorporated is a leading provider of cutting-edge security and technology solutions, serving the property development sector across Zimbabwe and Zambia for over 25 years.

Our history is rooted in innovation, with a commitment to delivering reliable, scalable, and integrated solutions tailored to the unique needs of a broad range of businesses. We leverage global partnerships and emerging technologies, ensuring our clients receive comprehensive, end-to-end security solutions.

Baztech's clientele includes prominent residential complexes, commercial properties, and hospitality establishments, all of whom rely on our expertise to safeguard their assets and streamline operations.

This brochure is designed to showcase Baztech Incorporated's comprehensive range of integrated security solutions tailored for the property development sector. It highlights our advanced offerings in access control, surveillance, and traffic management systems, emphasizing how these solutions can be seamlessly integrated with ERP software and enhanced by partnerships with leading physical security experts. Our goal is to demonstrate how Baztech's innovative technology can elevate security, streamline operations, and future-proof your property developments.

Access Control Systems

Smart Door Locks

Upgrade your security with smart door locks, offering keyless entry and remote access control for enhanced convenience and safety.

Turnstile Entry Systems

Enhance security at high-traffic points with automated turnstiles, ensuring controlled and monitored access for all entrants.

Perimeter Protection Systems

Guard your property's boundaries with cutting-edge perimeter protection, featuring sensors, barriers, and integrated alarm systems.

Network Intercom Systems

Facilitate secure communication and controlled access within residential complexes, ensuring a safe and connected environment.

Surveillance Systems

License Plate Recognition (LPR) Cameras

Track and record vehicle movements with LPR cameras, ensuring accurate identification and security of all vehicles entering your premises.

Smart Camera Systems

Secure every corner with high-definition smart cameras, providing real-time video feeds, motion detection, and integration with other security systems.

Visitor Management Systems

Streamline visitor access with digital check-ins, temporary passes, and real-time monitoring for enhanced security and convenience.

Traffic Management

Parking Guidance System

Optimize parking efficiency with real-time guidance systems, directing drivers to available spaces, reducing congestion and wait times.

Parking Ticketing System

Streamline parking operations with automated ticketing systems, enabling smooth entry and exit while ensuring accurate payment collection.

Barrier Gate Systems

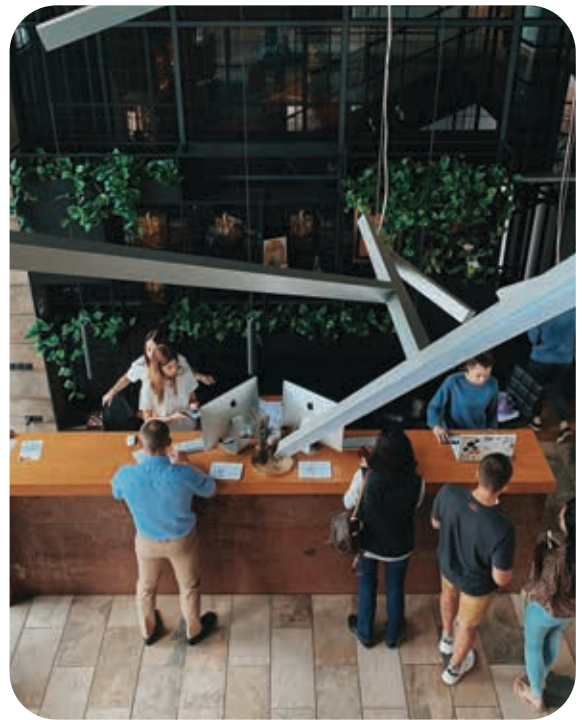

Control vehicle flow with automated barrier gates, providing secure entry and exit points for restricted areas and parking lots.

Integrated Solutions

ERP Software for the Hospitality Industry

Integrate our access control and security systems with leading ERP software designed specifically for the hospitality industry. This integration allows for seamless management of guest check-ins, room access, and operational data, creating a cohesive, efficient experience for both staff and guests. Our solutions ensure that your property remains secure while enhancing the overall guest experience through intelligent, automated processes.

Physical Security

Partner with our expert physical security personnel who are trained in the latest biometric security solutions. These professionals bring a deep understanding of advanced access control systems, ensuring that your property is not only secure but also efficiently managed. By combining cutting-edge technology with skilled personnel, we offer a comprehensive security solution that adapts to the unique needs of your development, providing peace of mind and operational efficiency.
